

21 SEPTEMBER 2011  
A DYE DESIGN  
ANGELA DYE, FASLA, LEED AP

## The Emerging Transportation Landscape

A DYE DESIGN specializes in community-defining work that inspires, enriches, and functions to enlighten people and place! Their work focuses on how populations move through their environments and interact with all modes of transportation. Projects include downtown redevelopment, transit centers, campus design, streetscapes, plazas, neighborhood traffic calming, parks, urban living, living/green rooftop gardens and public open space. They also develop public involvement programs, workshops, and charrettes that encourage citizens to participate in defining their communities.

This talk is part of the ESTABLISHED / e m e r g i n g lecture series. Join us. Free and open to the public. 6:00 pm AME room 202 (Speedway @ Mountain). Parking available at Park Avenue and Highland Garages. \*AIA CES credits pending courtesy of AIA-Southern Arizona.
