\* Master's Report (LAR 909) or Thesis (LAR 910) units can also be taken during the last 3 semesters, if you wish to keep minimal units for your last semester. If this is the case, we suggest you take 2 units in Spring II, 3 units in Fall III, and 1 unit in Spring III. If you have an assistantship in the final semester, you can add an additional 3 units to remain full-time. Most students are completing a master's report, so LAR 909 is the appropriate course number. These units are separate from the seminar class.
