

The architect's role is to determine: How can you leave this place better than you found it?

Christopher Domin
CAPLA Associate Professor of Architecture

THE UNIVERSITY OF ARIZONA

College of Architecture, Planning
& Landscape Architecture

BACHELOR OF ARCHITECTURE

The highly ranked, five-year NAAB-accredited Bachelor of Architecture prepares you for professional registration and practice in the field of architecture and design.

At CAPLA, we combine place-based design honed in the extreme climate and exquisite landscape of the Sonoran Desert with cutting-edge material and environmental research—all delivered through robust hands-on learning. As a B Arch student, you will acquire a portable design sensibility, empowering you to develop critical modes of practice, regardless of where or how you practice.

In the B Arch, you'll learn:

- How to design for climate and place
- Techniques, both digital and analog, for design representation and exploration
- Architectural history and theory
- Passive and active building technologies
- Digital fabrication and other advanced technologies
- How design should respond to materials, fabrication and construction
- The impact of sociocultural factors on design
- How to present your work visually, verbally and materially
- How to collaborate
- Professional practices and ethics
- Social justice and design for all

You'll graduate ready to thrive in a profession of increasing importance that is taking on climate change, growing urban populations, water scarcity and a post-pandemic world.

CAPLA.ARIZONA.EDU/B-ARCH

CAREER OUTLOOK

Demand for trained architects is high and growing not only in Arizona, but around the world. Graduates can expect to work in:

- Professional architectural practice
- Construction
- Consulting
- Sustainability
- Preservation
- Computer gaming
- Film and video modeling and production
- Digital fabrication and manufacturing
- Civic advocacy
- Other sectors of the building and construction industry

Graduates who go into practice will have a wide range of practice opportunities—from commercial to residential, industrial to civic, new design to adaptive reuse, all to create the living, work and recreation environments of the future.

BACHELOR OF ARCHITECTURE CURRICULUM

FOR THOSE ADMITTED *PRIOR TO SPRING 2022*

UNITS

COURSE #

FALL 1

Foundation Studio IA / Studio IA
Thinking About Architecture A / B
First-Year Composition
Modeling with Algebraic and Trig. Functions
Second Language Semester 1

SPRING 1

Foundation Studio II
Physical Principles of the Built Environment
First-Year Composition
General Education Tier 1
Second Language Semester 2

FALL 2

Design Studio I ■
Building Construction I
History and Theory of Architecture I
Techne I
General Education Tier 1

SPRING 2

Design Studio II ■
Building Technologies I
History and Theory of Architecture II
Techne II
General Education Tier 1

FALL 3

Design Studio III ■
Building Technologies II
Practice I: Pre-Design
History and Theory of Architecture III
Techne III

SPRING 3

Design Studio IV ■
Building Construction II
Critical Inquiry and Expression
Practice II: Ethics and Practice
General Education Tier 1

FALL 4

Design Studio V ■
Building Technologies III
Practice III
General Education Tier 1

SPRING 4

Options Design Studio ■
P3 Elective
P3 Elective
General Education Tier 1
General Education Tier 2

FALL 5

Options Design Studio II ■
Project Inquiry ■
P3 Elective
General Education Tier 2

SPRING 5

Capstone Studio ■
P3 Elective
Elective
General Education Tier 2

FOUNDATION PHASE

MILESTONE 1

NOTES:

A minimum of 166 units of coursework are required. Courses shown here indicate an ideal way to complete the B Arch degree in five years. Some courses must be taken in sequence while others may be shifted in the student's plan of study. Please confer with your advisor.

Second-semester second language proficiency required for degree completion.

■ Course requires a grade of C or higher to proceed to the next course.

PHASE 3 (P3) REQUIRED CURRICULUM

Each student is required to complete a cluster curriculum with at least four courses from a single P3 group:

Two P3 electives

- OR -

One P3 elective and one Options Studio (ARC 410E or ARC 410F)

- AND -

ARC 497 Project Inquiry and ARC 498 Capstone Studio
