Demand for trained architects is high and growing not only in Arizona, but around the world. Graduates can expect to work in:

- Professional architectural practice
- Construction
- Consulting
- Sustainability
- Preservation
- Computer gaming
- Film and video modeling and production
- Digital fabrication and manufacturing
- Civic advocacy
- Other sectors of the building and construction industry

Graduates who go into practice will have a wide range of practice opportunities—from commercial to residential, industrial to civic, new design to adaptive reuse, all to create the living, work and recreation environments of the future.

You’ll graduate ready to thrive in a profession of increasing importance that is taking on climate change, growing urban populations, water scarcity and a post-pandemic world.
