At CAPLA, you’ll learn—and practice—systematic public and private outdoor place design to promote social justice and wellbeing, human and environmental health, preservation of cultural heritage and creation of site and visual character.

CAREER OPPORTUNITIES

Demand for trained landscape architects is high and growing in Arizona and around the nation. Students graduate fully prepared for professional practice, finding employment with private-sector firms, governmental agencies and nonprofit organizations locally, nationally and internationally. Others continue on to pursue doctoral degrees. Graduates can design public and private outdoor places but may also specialize in:

- Green infrastructure and landscape performance
- Urban planning
- Natural and cultural resource conservation and management
- Design implementation and construction management
- Applied design research

MASTER OF LANDSCAPE ARCHITECTURE

The Master of Landscape Architecture is a three-year, STEM-designated program that prepares students for the practice of landscape architecture.

The MLA from the University of Arizona is fully accredited through the Landscape Architecture Accreditation Board (LAAB).

Our studio-based, sustainability-focused program employs real-world learning experiences that enable students to meet the most critical design challenges of the built environment.

As a landscape architecture student, you’ll learn:

- Landscape architecture history, theory, and criticism
- Design and design methods
- Sustainable design strategies and natural processes
- Socio-cultural factors in design
- Design implementation
- Professional communication, documentation and technology
- Professional practice
- Research and scholarly methods

With the MLA, you’ll graduate ready to thrive in a profession of increasing importance in the face of climate change, growing urban populations and challenges to social equity.

# MASTER OF LANDSCAPE ARCHITECTURE CURRICULUM

## FALL 1
- Design Studio I
- Plant Materials
- Contemporary Landscape Architecture
- Site Engineering

## SPRING 1
- Design Studio II
- Landscape Ecology
- Landscape Construction
- History and Theory of Landscape Architecture
- Introduction to Digital Media (or alternate elective)

## FALL 2
- Plant Design
- Design Studio III
- Introduction to GIS for Planning and Landscape Architecture

## SPRING 2
- Design Studio IV
- Landscape Planning Studio
- Landscape Architecture Seminar II
- Professional Practice

## FALL 3
- Design Studio V
- Landscape Architecture Seminar III

## SPRING 3
- Landscape Architecture Seminar IV
- Master's Report/Thesis

## ELECTIVES
### FALL
- Green Infrastructure
- Introduction to Heritage Conservation
- Research Methods

### SPRING
- Placemaking and Urban Form
- Geodesign Studio
- Documentation and Interpretation of the Historic Built Environment
- Preservation Planning Issues
- Bank of America Merrill Lynch Low Income Housing Challenge
- Land Use Planning Law

---

### NOTES:
A total of 76 units is required to earn the Master of Landscape Architecture degree.

- One elective is required. Electives must be approved by the academic advisor.

- Master's Report (LAR 909) or Thesis (LAR 910) units can also be taken during the last 3 semesters, if you wish to keep minimal units for your last semester. If this is the case, we suggest you take 2 units in Spring 2, 3 units in Fall 3, and 1 unit in Spring 3. If you have an assistantship in the final semester, you can add an additional 3 units to remain full-time. Most students complete a Master’s Report, so LAR 909 is the appropriate course number. These units are separate from the seminar class.
